

Environmental Management & ISO 14001

Sustainability is a key driver within any progressive business, and is becoming an ever more significant issue due to changes in legislation, and the public's environmental awareness, as well as the beneficial business opportunities if done correctly.

At **GENEX** we hold strong beliefs in environmental protection and enhancement of sustainability but also believe in businesses need for commercial prosperity. This sustainable development ethos ensures that we provide positive business outcomes for our clients while still protecting and enhancing our natural environment and society.

GENEX have specialist environmental experts that provide expert environmental and sustainability advice and services to our clients. We work closely with our clients to ensure that their organisations comply with all relevant environmental legislation and are kept at the leading edge of sustainable development practices.

GENEX can provide your company with an extensive range of sustainability services, from developing and embedding bespoke ISO 14001 compliant Environmental Management Systems (EMS) to undertaking specific one-off environmental investigations and reports to enhance your sustainable performance.

For further advice and assistance in Energy, Environmental and Water Management call **GENEX** on **01423 816220** or email us on enquiries@genex.eu.com
