

ENERGY SAVING OPPORTUNITY SCHEME (ESOS)

WHAT IS ESOS?

It is the UK Governments Mandatory legislation in response to implementing Article 8 of the EU Energy Efficiency Directive.

The Regulating Body is the Environment Agency

For Full Environment Agency Guidance please go to www.gov.uk and follow the links.

WHAT DO YOU HAVE TO DO?

- Identify your full Organisations energy usage: gas, oil, any other fuels and transports
- Undertake appropriate energy audits to identify opportunities to save costs
- By the 5th of December 2015 confirm compliance to The Environment Agency
- This is repeated on a 4 yearly cycle

DOES IT AFFECT ME?

Basically it applies to you if any Company within your UK Group of companies has:

- More than 250 employees
Or
- An annual turnover of €50m **and** a balance sheet exceeding €43 m

HOW CAN GENEX HELP?

GENEX was one of the first companies to gain the necessary ESOS “Lead Assessor” qualification

- STAGE 1: We can provide you with an initial FREE scoping report, just complete our “ESOS Initial Key Facts” application form and we will arrange a meeting to fully identify and quantify your requirements
- STAGE 2: We can undertake all necessary reports and will present fully compliant ESOS assessment reports including a full list of cost recommendations for saving you money
- STAGE 3:
 - (i) Present summary to your Board and obtain the Environment Agency required sign off by The Board.
 - (ii) Notification to the Environment Agency of compliance with the ESOS Regulations including provision of full “Evidence File”
